

HOMIFY

Your Property, Our Priority

Company Profile / 2025

➤ **PORTFOLIO**

Homify is the Thailand branch of Meijia Group. Meijia Group is a general contractor headquartered in Guangzhou, China. Established in 2001, specialize in quality Interiors & renovation work, we can provide a 'one stop' design and build service.

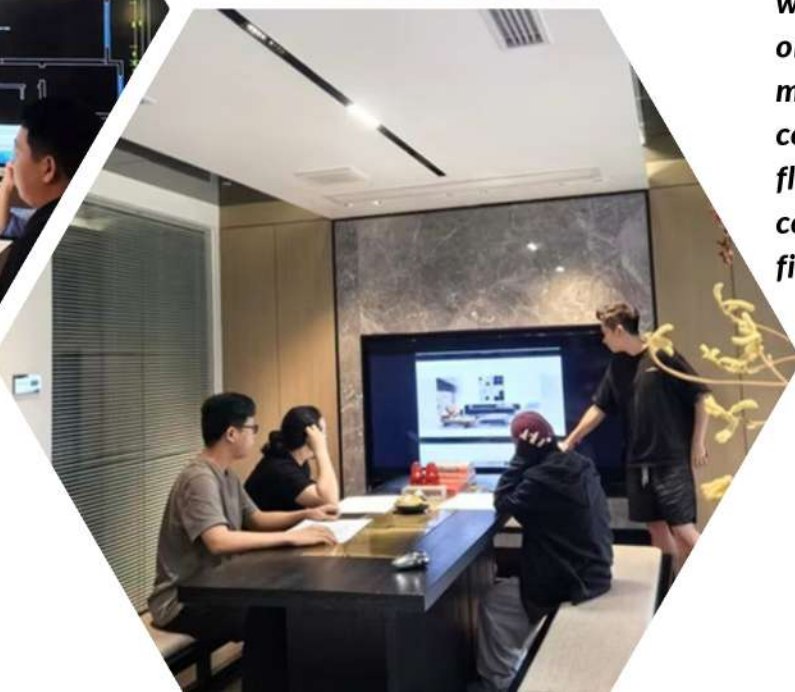

The Thailand branch was established in 2023 and has grown rapidly by leveraging domestic capital, comprehensive factory production capabilities, and strong design & construction teams. With the advantages of low cost, high efficiency, and high quality, Homify is committed to providing better services to our clients in Thailand.

We understand that every project is unique, important and challenging and we are very proud to deliver a landmark project for leading clients and aiming to grow to meet our clients' challenging needs.

Your Property, Our Priority

INTERIOR DESIGN & BUILD

we can provide a range of interior design and fit-out design services, spanning the full breadth of a project from inception to completion

we have excelled in working with both new and old buildings, offering innovative designs that meet client needs. With stakeholders, contractors or endusers, our blend of creative flair and practical knowledge ensures a comprehensive tailored service from start to finish.

Built-in Furniture

We specialize in designing, manufacturing, and installing custom built-in furniture to perfectly fit your space and lifestyle. Our services cover every stage — from concept design, material selection, and precision production, to on-site installation and final finishing.

Whether it's for residential, commercial, or hospitality projects, our built-in furniture solutions combine functionality, aesthetics, and durability. Common applications include:

Store @Thalang Phuket

Design & Create

Finalized drawings and materials will be gauged by our production manager with regards to its feasibility at the project site

Delivery & Installation

The finished installations are delivered using high-end packing materials to the worksite and installed under the expert supervision of our experienced team of supervisors and engineers.

PRE-FAB BUILD-IN FURNITURE

better management onsite as the pre-fabricated interior component can be modified and refined at the factory before installation; consequently, reducing the risks of on-site errors and installation time

An abstract photograph featuring several light-colored, rectangular blocks of varying heights and widths. The blocks are arranged in a way that creates a sense of depth and perspective. Strong, directional lighting from the upper left casts long, dark shadows across the blocks and the ground, emphasizing their geometric forms. A dark, semi-transparent horizontal bar is positioned across the middle of the image, containing the text "NEW MATERIALS" in white, bold, sans-serif capital letters.

NEW MATERIALS

Art Paint

Elegant Crystal Stone (Yajing Stone)

Elegant Crystal Stone is a premium engineered stone material known for its glossy, translucent surface and exquisite aesthetic appeal.

It combines natural minerals and advanced manufacturing technology to create a durable, elegant, and high-quality finish suitable for various architectural and interior design applications.

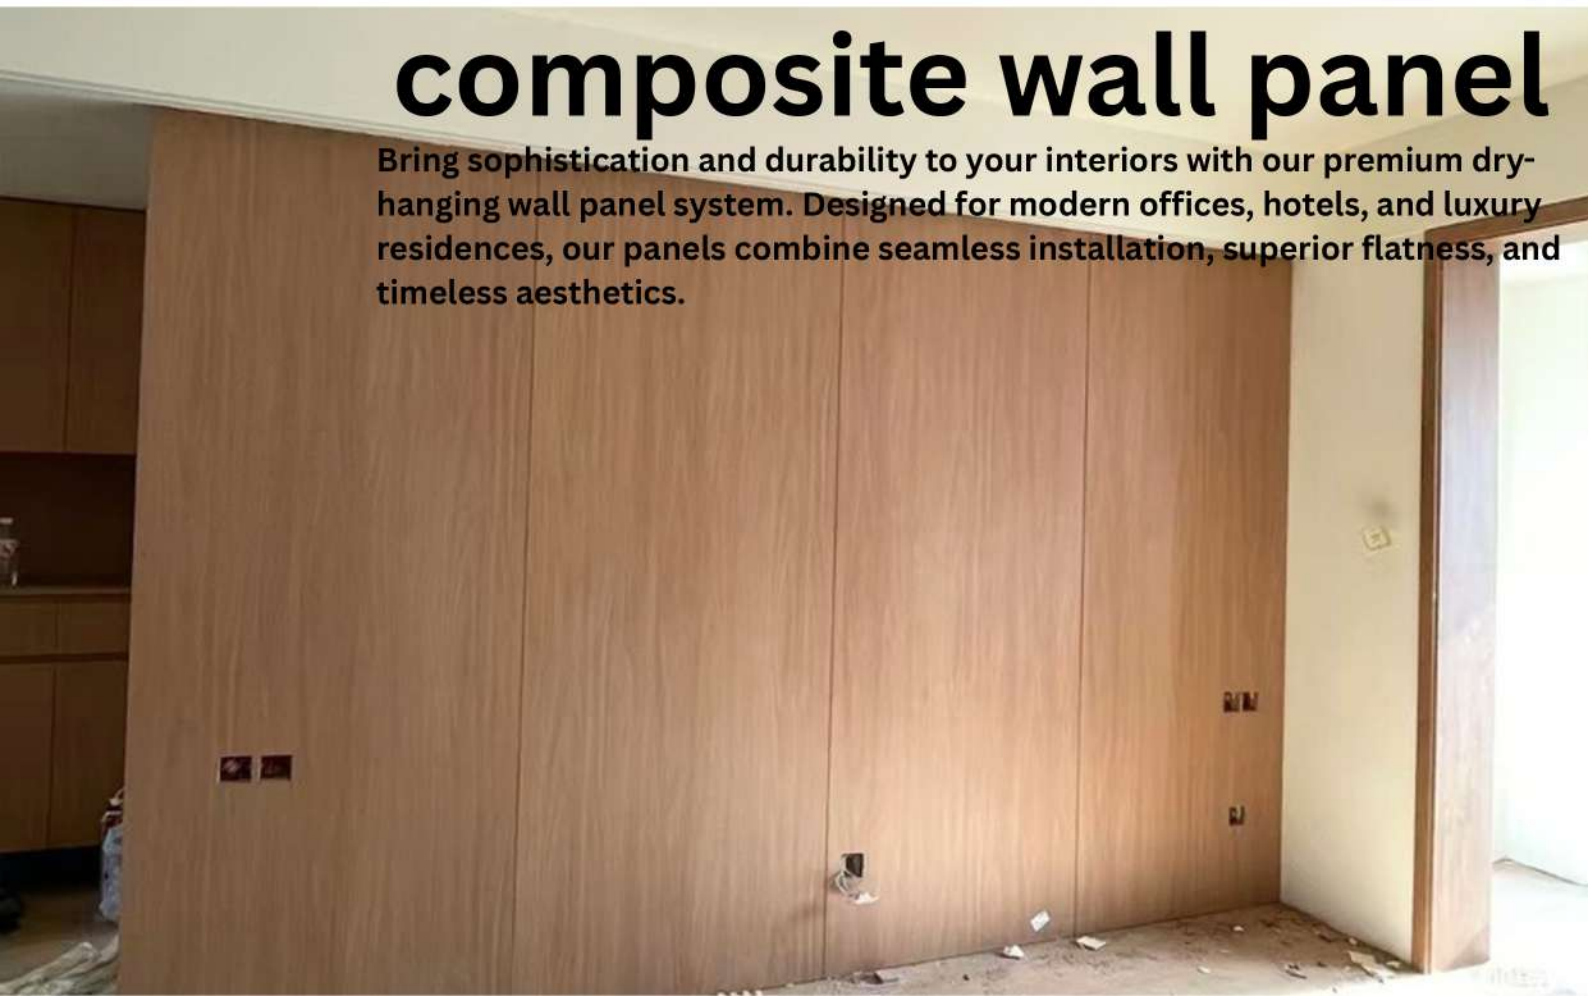

Glass Film

- 1.Reduce glare and UV damage, protecting your furniture and skin.
- 2.Enhance privacy without blocking natural light.
- 3.Save energy with improved heat insulation.
- 4.Easy to apply, long-lasting, and stylish.

composite wall panel

Bring sophistication and durability to your interiors with our premium dry-hanging wall panel system. Designed for modern offices, hotels, and luxury residences, our panels combine seamless installation, superior flatness, and timeless aesthetics.

carbonized wood

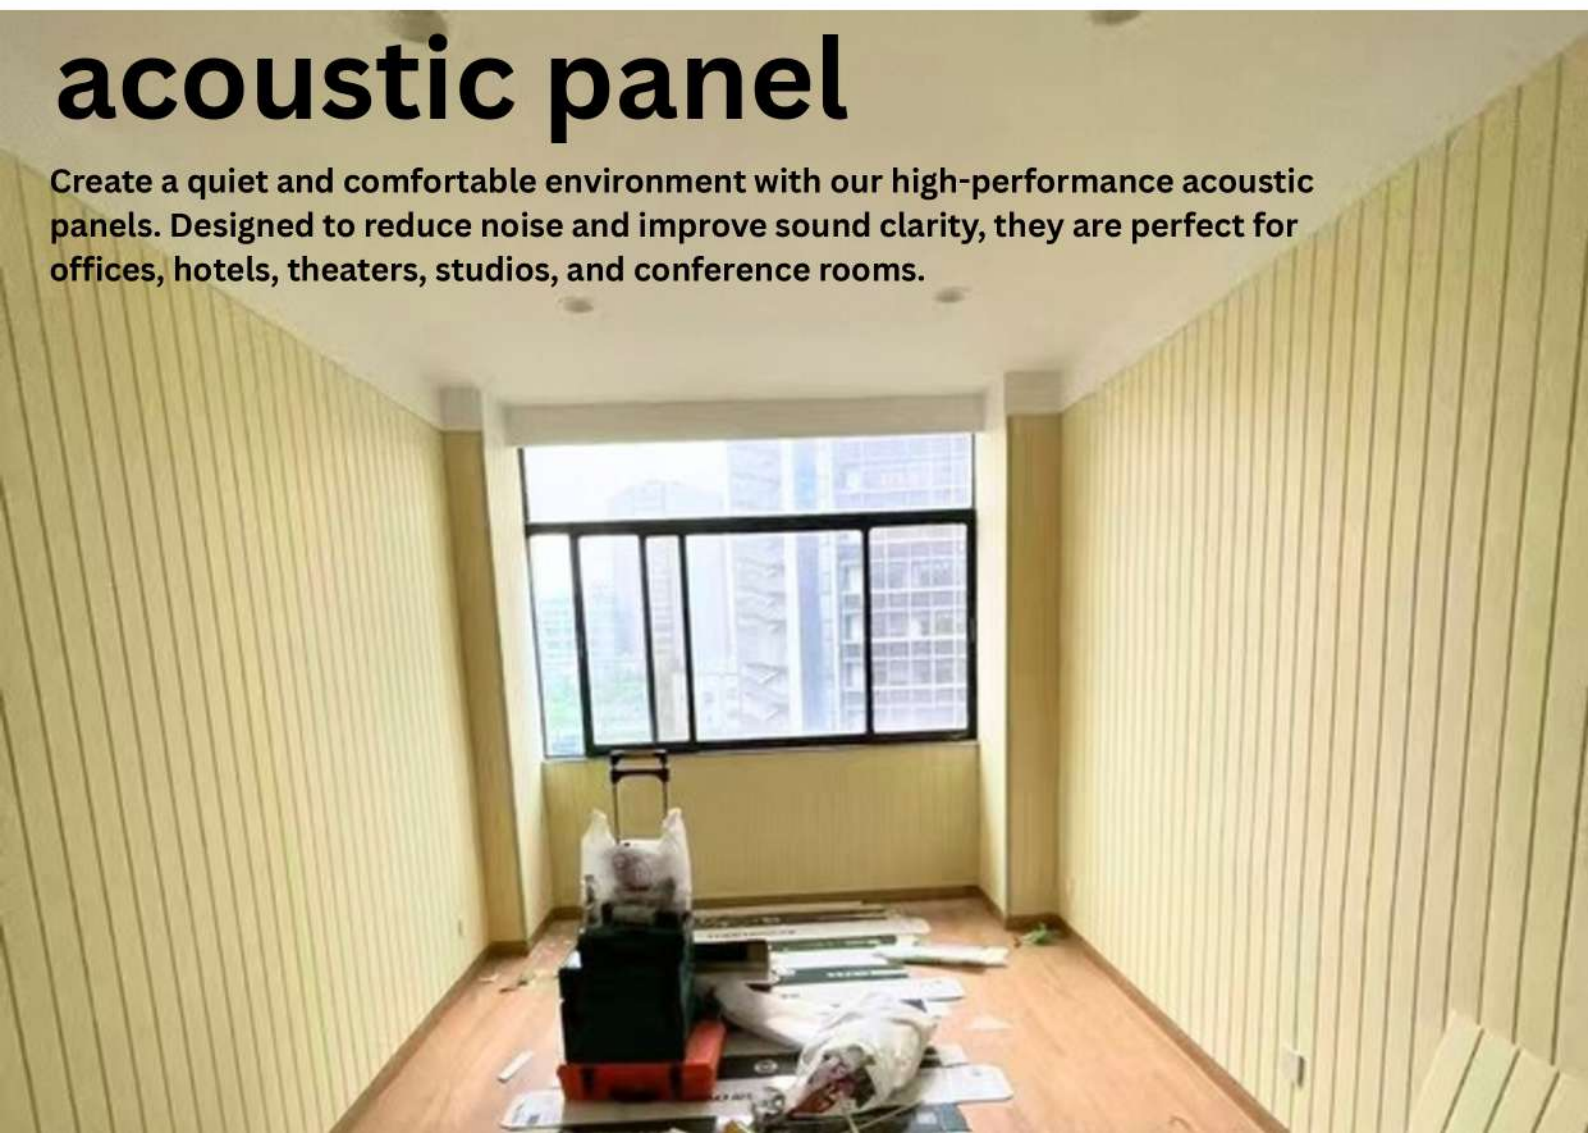

Bring natural elegance and durability to your design with our premium charred wood cladding. Through advanced thermal modification, the wood gains enhanced stability, weather resistance, and rich texture, making it ideal for interior and exterior applications.

acoustic panel

Create a quiet and comfortable environment with our high-performance acoustic panels. Designed to reduce noise and improve sound clarity, they are perfect for offices, hotels, theaters, studios, and conference rooms.
